SAFETY DATA SHEET (SDS) According to 1907/2006/EC, Article 31

May be used to comply with OSHA's Hazard Communication Standard, 29 CFR 1910.1200. Standard must be consulted for specific requirements.

Section I – Identification of the substance/mixture and of the company/undertaking

IDENTITY (As Used on Label and List)		ted. If any item is not applicable, or no
READY KLEEN	mornation is available, the	space must be marked to indicate that.
One Step Disinfectant Cleaner (Product Code/Reorder#00228)		
(Product Code/Reorder#00228) Manufacturer's Name	Emergency Telephone Number	
DermaRite Industries) 569-9000
Address (Number, Street, City, State, and ZIP Code) 7777 WEST SIDE AVENUE, NORTH BERGEN NJ 07047	Telephone Number for Information (973)) 569-9000
Section II – Hazardous Identification		
List all hazards regarding the material GHS Classification: 1.Skin-Category 2; 2. Eyes - Catego	orv 2B	
ist all required label requirement		
Signal Word: Warning		
Hazard Statement: May cause skin irritation.		
Precautionary Statements: Wear protective gloves and eye pr		-
Acute Effects: Eyes: May cause eye irritation. Skin: May be mild		
to the throat and respiratory tract. Ingestion: Maybe irritating to the	emouth, throat and gastrointesti	nal system. Symptoms may include
nausea, vomiting, diarrhea and cramps.		
Chronic Effects: CARCINOGENICITY: No known critical effects	or critical hazards.	
Product /Ingredient Name: Not available.		
Recommended use and restriction of use		
General Disinfectant ready-to-use spray.		
General Disinfectant ready-to-use spray.		
General Disinfectant ready-to-use spray. Section III – Composition/Information on Ingredients		Other Limits
Section III – Composition/Information on Ingredients	OSHA PEL ACGIH TLV	Other Limits Recommended %(optional)

involving any personal risk or without suitable training.

Unusual Fire and Explosion Hazards

Specific Hazards Arising from the Chemical: In a fire or if heated, a pressure increase will occur and the container may burst. Specific Protective Equipment for Fire-Fighters:

Fire-Fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with full piece operated in positive pressure mode.

Section VI – Accidental release measures

Steps to Be Taken in Case Material Is Released or Spilled

Spill Clean Up: Put on appropriate personal protective equipment. Stop leak if without risk. Move Containers

from spill area. Dilute with water and mop up if water-soluble or absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Respiratory Protection (Specify Type)

A respirator is not needed under normal and intended conditions of product use.

Ventilation	Local Exhaust	Special	
Use with adequate ventilation.	Not necessar	y I	No
Wear protective hand gloves (nitrile	Mechanical (General)	Other	
gloves/rubber gloves/neoprene gloves	Ok		No
Protective Gloves	Eye P	rotection	
n/a	Safe	ty glasses.	
Other Protective Clothing or Equipment			
Normal work alathan Dut an appropriate r	organal protactive aquipment		

Normal work clothes. Put on appropriate personal protective equipment.

Work/Hygienic Practices

Section VII– Handling and Storage

Precautions to Be Taken in Handling and Storing

Handling: Put on appropriate personal protective equipment (see Section VI). Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Do not reuse container. Wash thoroughly after handling.

Storage: Store between the following temperatures: 4.44 to 48.9°C (40 to 120°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see below) and

food and drink. Separate from acids. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to

avoid environmental contamination.

Incompatibilities

Keep away from strong oxidizing agents, reducing agents

Section VIII – Exposure controls/personal protection

OSHA's Permissible Exposure Limits (PELs)

No data

Threshold limit values (TLVs)

NONE

Appropriate engineering controls NONE

Personal protective equipment (PPE)

EYES: Safety goggles, splash goggles; SKIN: Use synthetic apron, other protective equipment as necessary to prevent skin contact.; BODY: For prolonged or repeated handling, use gloves.

RESPIRATORY: Use with adequate ventilation

Section IX – Physical and chemical properties

ting Point	Not available
aporation Rate tyl Acetate = 1)	Not available
ар	poration Rate

Water soluble

Appearance and Odor

Light yellow water thin liquid with Power and Fresh fragrance

Section X – Stability and Reactivity Data

Unstable	Conditions to Avoid
	Keep away from oxidizing agents
Stable	X

Incompatibility (Materials to Avoid)

Not soluble with oil preparations
