Dear MSDS Requestor:

In response to your request for a Material Safety Data Sheet (MSDS) and hazard labeling requirements for wet wipes, please be advised that wet wipes are specifically exempt from the Occupational Safety and Health Administration Hazard Communication Standard; [29 CFR 1910.1200.b.6. \(v\)](#).

Wet wipes are classified as “*articles*”. An article is defined as “*a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical, and does not pose a physical hazard or health risk to employees.*”. Since wet wipes meet this definition, no MSDS or hazard labeling is required.

Sincerely,

Keith Dimon
Quality Assurance Manager
NDI
