

Magellan™ Insulin and Tuberculin Safety Syringe

Instructions For Use

1
Select the appropriate Magellan™ Insulin or Tuberculin Safety Syringe for your procedure.

2
Open package by peeling back paper tabs and remove syringe.

3
Remove protective needle sheath.

4
Draw up medication and administer injection using an aseptic technique in accordance with your facility's protocol.

5
Lock the safety shield using your thumb

...your finger.

6
Verify locked position through audible and tactile "click". Locked position will completely encase needle.

7
Once the shield is locked, immediately dispose of syringe in an approved sharps disposal container.
