Transparent Film Roll

Overview   **Instructions for use**

Step 1

Cut off the desired length of film from roll.

Step 2

Fold the strip along its length to crack the protective papers. Remove the backing paper marked No.1 "remove first".

Step 3

Apply the adhesive film to desired area and smooth down.

Step 4

Remove the green squared grid carrier, marked No 3.

To remove the film, gently stretch the film parallel to the skin and lift off.
