

UnnaRite™

Unna Boot with Zinc

UnnaRite C™

Unna Boot with Zinc and Calamine

Unna boot with zinc that provides static semi-rigid compression while maintaining a moist wound healing environment. Also available with calamine as UnnaRite C. Both versions are available in 3" or 4" wide bandage roll sizes.

Benefits:

- Maintains a moist healing environment
- Provides gentle compression for venous leg ulcers
- May be safely worn for up to 7 days, depending on wound drainage
- Not made with natural rubber latex.

Indications:

For venous leg ulcers and ambulatory compression for lower extremity edema.

Contraindicated for patients with a known sensitivity to zinc (and/or calamine - UnnaRite C).
